Libraries NI Filming Policy

1. Introduction

- 1.1 Libraries receive regular requests to film in or around a library location.
- 1.2 The three main categories of requests are as follows:
- media requests to film in response to a news item; these requests are often associated directly with a news story (news film requests)
 - filming of library resources e.g. newspapers, heritage, stock
 - using library premises as a location.

2. Purpose

- 2.1 This policy sets out the Libraries NI approach to responding to requests to film in or around a library location. It does not include filming that takes place as a result of Libraries NI proactively seeking to raise its profile and/or promote its services and events.

3. Policy

- 3.1 Libraries NI recognises the need for positive media coverage for libraries and the importance of working with the media to promote libraries, library services and the resources that are available.
- 3.2 Libraries NI staff members will attempt to facilitate filming requests when possible. However it is recognised that this can be disruptive to customer service and/or demanding on staff time and an appropriate balance is required.
- 3.3 Priority will be given to news items and to items that feature Libraries NI resources.
- 3.4 The following conditions will apply:
- all filming will be subject to relevant legislative and library policy constraints
 - Libraries NI reserves the right, for any reason, to decline any request for filming or to require that filming ceases with only such notice as would be reasonable.
 - filming which might breach Libraries NI's Health and Safety Policies will not be permitted
 - filming which might compromise the perception of the Service as an open and welcoming space to all will not be permitted
 - if library customers or staff are involved in filming all relevant permissions must be obtained including, where appropriate, those set out in the Libraries NI Safeguarding Policy
 - Libraries NI should be acknowledged as the source of resources or a location.

3.5 Charges will normally be made for the use of a library as a filming location.
