LibrariesNI Public WiFi Instructions for Android Devices

This guide provides general guidance upon how to connect Android devices to the LibrariesNI public WiFi service and how to use the WiFi web based print service.

Please note that if you do encounter any issues when connecting to the WiFi Service, then it’s recommended that you refer to the manufacturer’s instructions for connecting your particular device to a wireless network.

How to connect to the LibrariesNI WiFi Service

1. Connect your device to the appropriate LibrariesNI Public Adult or Public Child WiFi network. If you are under 16 years old then you’ll need to connect to the Public Child WiFi service.

   - **If you are under 16 years old**
   - **If you are 16 years old or above**

2. Once you’ve connected, open up Internet explorer and attempt to connect to any website. You should be automatically redirected to the LibrariesNI WiFi service login page. Enter your membership ID number and PIN code and select Login:

   ![LibrariesNI WiFi Login Screen]

   - **Welcome to the Library’s wireless service.**
   - Please note this service is not yet live, please check back soon.
   - You are connected to the Child Wireless Lan Group.
   - Please login using your Child Library card number and pin.
3. If login was successful then you’ll see the following screen and you’ll be redirected to the requested website within 10 seconds.

**User Authenticated**

In 10 seconds you will be automatically redirected to http://www.google.com/.

Click [here](http://www.google.com) to go there directly.

Click [here](http://www.google.com) to bookmark this page.

4. You’re should now be connected to the LibrariesNI WiFi service.

5. Please note when you try to load secure websites which have a web address starting with HTTPS, you will be prompted every time with a warning page and you have to click on “Continue” to access these web pages. In order to stop this happening every time, you can install a security certificate which will remove this message. Instructions on how to bypass this message are shown below.

**How to install the LibrariesNI Certificate for viewing secure (HTTPS) websites**

Please note that when you first start to use the Public WiFi service you’ll be requested to select continue every time you access a secure HTTPS webpage. This is because the LibrariesNI Internet proxy service uses its own certificate to inspect any SSL web traffic. To prevent you having to select continue each time, if supported by your device you can download and then install the LibrariesNI proxy service certificate into your device trusted certificate store. The LibrariesNI proxy service certificate can be downloaded from the following website:

[http://www.librariesni.org.uk/Pages/LibrariesNI-Wifi-Instructions.aspx](http://www.librariesni.org.uk/Pages/LibrariesNI-Wifi-Instructions.aspx)

Please refer to the device manufacturer’s instructions upon how to install certificates upon your particular device.

**How to Print when using the LibrariesNI WiFi service**

1. Once you’ve connected and logged into the LibrariesNI WiFi service, open your preferred web browser and go to the following url address: [http://webprint.lni.net:9191](http://webprint.lni.net:9191)

2. Login with your Membership ID and PIN Code:
3. Once logged in select “Web Print” and then “Submit a Job”

4. Select either the Black and White or Colour printer for your location, and then select “Print Options and Account Selection” to proceed.

5. Enter the number of copies you wish to print and then select “Upload Documents”.

6. Select browse and locate the document you wish to print. Once you’ve selected your document press “Upload and Complete”.

7. Your document will now be uploaded and held in a print queue. Please go to a library staff member who’ll release the print job following payment.
